- Back up UPS and generators
- Fire detection & suppression
- 24/7 monitoring and support
- CCTV monitoring
- Integrated building management system
- Interconnected through dual fibre routes to Teraco Isando, CPT, Durban & ADC
- Connected to our robust core Juniper network which offers high performance network throughput
- Fire detection and suppression

### ABOUT CIPHERWAVE

Launched in 2010, CipherWave has established itself as a leading Tier 1 ISP, offering tailor-made, scalable CONNECTIVITY, VOICE, CLOUD and SECURITY solutions. We are a proudly South African company with strong partnerships allowing us to provide best-in-class, global technology solutions and expertise, to growing South African businesses. Our differentiator is the quality of our service backed by our customer engagement model. We Own and Manage our network, cloud and voice infrastructure, which enables us to provide fast, reliable and efficient service and support to our customers.
